SUMMARY

Software Engineer with 3 years of experience in Backend AI development and Test Automation. Skilled in building scalable enterprise applications using Spring Boot, Spring AI, and Java. Strong background in Cloud technologies (Azure) and QA automation frameworks.

EXPERIENCE

Backend AI Engineer | May 2025 – Present Coforge | Bengaluru, India (Client: Northern Trust – Web Cash Movement Project)

- Designed and implemented backend services using Spring Boot and Spring AI to integrate LLM capabilities into Northern Trust's Web Cash Movement project ensuring smooth payments flow.
- Developed RESTful APIs and microservices architectures to support high-performance, scalable cash movement workflows for enterprise banking operations.
- Orchestrated CI/CD pipelines on Azure to automate deployment of backend services and testing workflows, ensuring reliable and continuous delivery.
- Collaborated with cross-functional teams to transition legacy cash movement systems into AI-powered platforms, improving operational efficiency.

Engineer (Client: Northern Trust – Web Cash Movement Project)
Cigniti Technologies | Hyderabad, Telangana, India

December 2024 - May 2025

- Led architecture of scalable automation frameworks using Java, Selenium, and TestNG.
- Promoted twice within 18 months by delivering end-to-end frameworks that reduced manual effort by 60%.
- Achieved 80% test automation coverage for web platforms using data-driven and BDD strategies for Northern Trust's Web Cash Movement platform.
- Mentored junior and senior team members on framework design and testing best practices.

Associate Engineer (Client: Northern Trust – Web Cash Movement Project)
Cigniti Technologies | Hyderabad, Telangana, India

May 2024 - December 2024

- Created maintainable automated test suites for web applications, achieving over 80% test automation coverage.
- Enhanced software quality through functional, regression, and integration testing.
- Collaborated with development teams to identify and resolve defects early in the development lifecycle.

Trainee

November 2023 - May 2024

Cigniti Technologies | Hyderabad, Telangana, India

- Developed automated test scripts using Java and Selenium WebDriver for comprehensive testing coverage.
- Participated in agile ceremonies including sprint planning and retrospectives.
- Executed manual and automated test cases, documenting defects and tracking resolution progress.

TECHNICAL SKILLS

Backend and AI: Spring Boot, Spring AI, Java, REST Assured, SQL, MySQL

Automation Tools: Selenium WebDriver, TestNG, Cucumber, Gherkin, JUnit

Cloud and DevOps: Microsoft Azure, Docker, Git, Jenkins, CI/CD

Web Technologies: React, JavaScript, HTML, CSS

EDUCATION

Bachelor of Engineering in Computer Science
A. J. Institute of Engineering and Technology, Mangaluru, Kamataka, India

August 2019 - May 2023

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals

KEY ACHIEVEMENTS

- Promoted twice within 18 months, demonstrating rapid skill development and strong performance.
- Built end-to-end automation frameworks from scratch, reducing manual testing effort by 60%.
- Recognized for innovative solutions in test automation and commitment to continuous improvement.
